#### Plan

##### VACCINATION POLICY

To prevent communicable diseases while your pet is here to stay, we require proof of Fecal within the last 12 months, DHPP and Rabies within the last 3 years for adults, and Bordetella (Kennel Cough) vaccine within the last 6 months. If proof is not available, then we will vaccinate/treat at the owner's expense.

##### LATE PICKUP POLICY

Our office hours are 8am-6pm Monday thru Friday and 8am-12pm on Saturdays. We are closed 12pm-2pm every Friday and the fifth Saturday of the month. We will discharge pets only during business hours. If a pet is not picked up prior to 6pm on Monday-Friday or 12pm on Saturday, we will charge an additional night of boarding. If previous arrangements have not been made for extra boarding an additional \$24 per day per pet will be charged in addition to the overnight boarding fee.

##### PLAYTIME POLICY

By choosing to allow my pet to participate in group playtime, I understand that Animal Care Center will allow dogs to play within groups of similar personality and temperament. No intact males over the age of 6 months will be allowed to play with other dogs. I also understand that incidents can happen and I agree that the veterinarians at Animal Care Center will promptly treat any known wounds at my expense and my pet will be protected from any further incidents.

##### EMERGENCY POLICY

IN THE EVENT OF ILLNESS, THE VETERINARIANS AT ANIMAL CARE CENTER WILL TREAT MINOR ILLNESS OR STABILIZE MAJOR ILLNESS AT THE OWNER'S EXPENSE AND EVERY ATTEMPT WILL BE MADE TO CONTACT YOU AS SOON AS POSSIBLE. PLEASE BE SURE THAT YOU CAN BE CONTACTED.

Dec 06, 2018 Teleah Grand DVM Isn't feeling himself 12/6 rec:

#### Subjective

*Reason for Visit: ADR  
Isn't feeling himself 12/6 rec*

#### Objective

Pt presented for lethargy and vomiting for about a week  
vomited Saturday twice not himself, very uncomfortable, seemed better the next day  
did not stop eating  
went to Daycare on Tuesday and seemed stiff and sore the following day.  
Last night eating but threw up twice and not acting right  
ate this morning and threw up in car on the way to the clinic

diet iams dry - homemade food  
medications Xiao Yao san  
stools normal - did have 4 bowel movements on Saturday

Vitals: 8:50am 12/13/18 Wt: 18.7 lb. T: 100.8 F. HR: 100 RR: 40 By: BS

General Appearance: BAR

Eyes: Corneas clear, pupils normal size, symmetrical; sclera white, no ocular discharge

Ears: Normal ear canal, clean and clear

Integument: Normal amount of shedding; skin looks normal; hair coat in good condition

Oral Cavity: Teeth are free from excessive tartar; gums are pink and moist; no gingivitis present

Lymphatics: Lymphnodes all normal size

Cardiovascular: Regular Rhythm; no murmur detected; CRT<2

Musculoskeletal: Ambulates normally

Gastrointestinal: tense abdomen - guarding, not gassy.

Urogenital: Normal eliminations; external genitalia normal; bladder palpates normally

Respiratory: Lungs auscultate clear; trachea clear

Neurologic: No apparent abnormalities

Tongue: purple moist tongue

Pulse: superficial fast and wiry

Alarm Points: .

#### Assessment

r/o acute gastroenteritis, FBO (partial) intussusception, pancreatitis

#### Plan

exam

cbc/chem/T4/ua - pending

rads - hemi vertebrea T2-T12, indistinct upper left quadrant abdomen

barium series - nsf - cleared to colon by 4pm.

pain uinjection 0.3ml buprenophine with hub of ace and 2.7ml saline in AnShen and BL20

no vomiting throughout the day

7pm smelly mucousy diarrhea - pale color due to barium

metronidazole 250mg PO 7pm

ate a small amount of gi low fat for dinner and just before bed

Canine Orchiectomy: Placed patient in dorsal recumbency. Inguinal area cranial to scrotum clipped and prepped. Surgical site draped in sterile fashion. A 2-0 cm ventral midline skin incision created cranial to scrotum. Testicle was advanced cranially and exteriorized through the skin incision. The spermatica fascia and parietal vaginal tunic were incised, further exteriorizing the testicle. A hemostat was placed on the ligament of the tail of the epididymis and digitally separated. The spermatic cord was isolated and double ligated using 2-0 PDS. The parietal vaginal tunic and cremaster m. were ligated using 2-0 PDS transfixing. Subcutaneous tissue closed using 2-0PDS simple continuous. Skin apposed using 2-0PDS(intradermal/simple interrupted).

ventral midline incision over umbilical hernal. excised muscle and external and internal rectal sheath. closed body wall SC 2-0 PDS. closed suctaneous tissue 2-0 PDS SC, closed skin 2-0 PDS subcuticular

Selective extraction of 302/402 incisors due to crowding  
 malalignment on 106 - space between it and other premolars, decided to leave intact, watch for periodontal disease

Rx: Carprofen & Tramadol

Recovery: Smooth

**Plan****VACCINATION POLICY**

To prevent communicable diseases while your pet is here to stay, we require proof of Fecal within the last 12 months, DHPP and Rabies within the last 3 years for adults, and Bordetella (Kennel Cough) vaccine within the last 6 months. If proof is not available, then we will vaccinate/treat at the owner's expense.

**LATE PICKUP POLICY**

Our office hours are 8am-6pm Monday thru Friday and 8am-12pm on Saturdays. We are closed 12pm-2pm every Friday and the fifth Saturday of the month. We will discharge pets only during business hours. If a pet is not picked up prior to 6pm on Monday-Friday or 12pm on Saturday, we will charge an additional night of boarding. If previous arrangements have not been made for extra boarding an additional \$24 per day per pet will be charged in addition to the overnight boarding fee.

**PLAYTIME POLICY**

By choosing to allow my pet to participate in group playtime, I understand that Animal Care Center will allow dogs to play within groups of similar personality and temperament. No intact males over the age of 6 months will be allowed to play with other dogs. I also understand that incidents can happen and I agree that the veterinarians at Animal Care Center will promptly treat any known wounds at my expense and my pet will be protected from any further incidents.

**EMERGENCY POLICY**

IN THE EVENT OF ILLNESS, THE VETERINARIANS AT ANIMAL CARE CENTER WILL TREAT MINOR ILLNESS OR STABILIZE MAJOR ILLNESS AT THE OWNER'S EXPENSE AND EVERY ATTEMPT WILL BE MADE TO CONTACT YOU AS SOON AS POSSIBLE. PLEASE BE SURE THAT YOU CAN BE CONTACTED.
